Quick Guide to...

Member and Fellow (RICS Accelerated Route)

Member (MRICS) applicants will be fully qualified civil engineering surveyors.

Fellow (FRICS) applicants will have significant senior experience as civil engineering surveyors and will have demonstrated a contribution to the industry that is over and above their everyday professional work.

Eligibility
Using this route an applicant will:
■ Be a Member or Fellow of the Royal Institution of Chartered Surveyors (RICS).
■ Be a fully qualified civil engineering surveyor and, in the case of Fellow applicants, be able to demonstrate significant experience in the civil engineering, commercial or geospatial environment.

How to Apply
An application via the RICS Accelerated Route must include:
■ Online application form with details of two sponsors, who must hold at least the same grade as the applicant. Sponsors may be Members or Fellows of RICS, ICES, Institution of Civil Engineers or Chartered Institute of Building. Members and Fellows from overseas professional bodies which have a memorandum of understanding* with ICES may also sponsor applicants. ICES will check the validity of the sponsorship claimed with the sponsor and professional body.
■ Evidence of being a Member or Fellow of RICS and payment of annual subscription for the current year.
■ A detailed CV.
■ Digital photograph.
■ Application fee of £75.00.

Detailed CV
The CV should demonstrate experience in the civil engineering industry in either the commercial management or geospatial environment by providing details of the civil engineering technologies and techniques employed on relevant projects the applicant has contributed to. The detailed CV for applications via this route should be approximately 2,000 words long.

Please return all requested documentation to the membership department at ICES head office. Applicants should submit applications electronically via www.cices.org/forms

*A list of organisations ICES has current memoranda of understanding with is available from applications@cices.org
