

Quick Guide to...

Graduate Member

A Graduate member has successfully completed either a CICES accredited degree course, an acceptable alternative course such as a BSc, postgraduate diploma, an MSc or an appropriate S/NVQ programme. There is a wide range of alternative degree courses that are acceptable for graduate membership, including many construction, numerate, scientific and geography courses. Please check with CICES HQ before making your application.

Eligibility

A Graduate Member will have one of the above qualifications and will be committed to working towards achieving the grade of Member or Technical Member.

Benefits of Membership

Key benefits include:

- The opportunity to apply to upgrade to the qualification grades of membership (subject to eligibility).
- The award of the designatory letters GCInstCES.
- Ten copies per year of the CICES journal, Civil Engineering Surveyor.
- The monthly CICES e-newsletter.
- Access to the CICES regional events programme.
- The opportunity to become an active member of the CICES 2040 Forum (if under 36 years of age).

How to Apply

The Graduate Member application must include:

- Online application or upgrade form signed by a sponsor.
- Digital photograph.
- Photocopy/scanned evidence of an appropriate qualification.
- The necessary application fee.

Please return all requested documentation to the membership department at CICES head office.

Applicants should submit applications electronically via www.cices.org/forms
