

COMMERCIAL MANAGEMENT

Construction Law Competencies

To exhibit an understanding of contract and civil engineering construction law, to support and recommend appropriate strategies to other members of the construction team. This requires knowledge of contract documentation, standard forms of contract in common use, understanding of various forms of guarantee, production and settlement of contractual claims, the performance of advisory and administrative functions and a good knowledge of dispute resolution techniques.

Range Indicators

Competency will be demonstrated in the application of relevant knowledge, understanding and skills set out in the following construction law competencies. Such knowledge and skills will normally be obtained through a structured development scheme.

This area of specialism includes the following core areas:

- To be able to demonstrate knowledge of contract law in the context of construction.
- To be able to demonstrate knowledge and experience of contract structures and documentation.
- To be able to demonstrate a sound working knowledge of construction standard forms of contract.
- To be able to demonstrate knowledge and use of construction programmes.
- To be able to demonstrate understanding of guarantees, bonds, warranties and insurances.
- To be able to demonstrate an understanding of entitlement to, and preparation and negotiation of, contract claims.
- To be able to understand various types of dispute resolution.

Evidence Guide

Evidence of successful achievement of these competencies should be provided in the detailed CV, experience report and CPD records. They will be tested during the review interview.

Owing to varied areas of individual specialism, the candidate is expected to have achieved level "E" or above in at least 20 activities (that is 14 activities in addition to the 6 indicated in the construction law group of competencies CL01 to CL07).

Construction Law Competencies

NOTE: Owing to varied areas of individual specialism, the candidate is expected to have achieved level "E" or above in at least 20 activities (that is 14 activities in addition to the 6 indicated in the construction law group of competencies CL01 to CL07).

		CL01	COMPETENCIES AND RANGE OF ELEMENTS				
		Competency	Demonstrate knowledge of contract law in the context of construction.				
		Optimum Standard	Activity Details	Date of Assessment			
Reference				A	K	E	B
A		K	Knowledge of appropriate contract law.				
B		K	Latent defects and limitations on Action.				
C		K	Contract formation including letters of intent.				
D		K	Supplemental agreements, heads of terms, memorandum of understanding				
E		K	Understanding the effects of final account statements and completion certificates.				
F		K	Understand extensions of time, delay damages and penalties.				
		1 st Review	Supervisors signature				Date
		2 nd Review	Supervisors signature				Date
		3 rd Review	Supervisors signature				Date
