

# Chartered Institution of CIVIL ENGINEERING SURVEYORS

Demonstrate your competence and professionalism as a land surveyor with the Chartered Institution of Civil Engineering Surveyors

- ICES is recognised as a leading chartered professional body for land surveyors.
- ICES has relevant and meaningful competencies for land surveyors in the civil engineering and geospatial sectors.
- ICES supports you and your company within the sector in developing and demonstrating your professional competence.
- ICES is flexible in its approach and offers both technical and professional routes.

**TRAINING**  **MENTORING**  **COMPETENCIES**  **APPRAISAL**  **FEEDBACK**

## Land Surveying

**ICES** offers membership at affiliate, graduate, technical member, member and fellow level for engineering surveyors.

Benefits include:

- 🌀 A recognised qualification from a chartered professional body.
- 🌀 Flexible routes for those with a range of prior qualifications.
- 🌀 Mature entry routes available for technical members, members and fellows.
- 🌀 Ten copies per year of the ICES journal, Civil Engineering Surveyor.
- 🌀 The monthly ICES eNewsletter.
- 🌀 Access to ICES regional events.

What you need to do:

- 🌀 Look at the ICES website and read the Quick Guides for each grade of membership.
- 🌀 Consult the Guide to Membership (available online or on request from [membership@cices.org](mailto:membership@cices.org)).
- 🌀 Speak to a member of ICES staff if you have any questions.

**A focused, respected, qualification**

For details of how to apply, download the Quick Guides from [www.cices.org/downloads.html](http://www.cices.org/downloads.html)
